

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session 2026-2027

Vision: Dream of where you want.**Mission:** Means to achieve Vision

Program Educational Objectives of the program (PEO): (broad statements that describe the professional and career accomplishments)

PEO1	Preparation	P: Preparation	Pep-CL abbreviation pronounce as Pep-si-IL easy to recall
PEO2	Core Competence	E: Environment (Learning Environment)	
PEO3	Breadth	P: Professionalism	
PEO4	Professionalism	C: Core Competence	
PEO5	Learning Environment	L: Breadth (Learning in diverse areas)	

Program Outcomes (PO): (statements that describe what a student should be able to do and know by the end of a program)

Keywords of POs:

Engineering knowledge, Problem analysis, Design/development of solutions, Conduct Investigations of Complex Problems, Engineering Tool Usage, The Engineer and The World, Ethics, Individual and Collaborative Team work, Communication, Project Management and Finance, Life-Long Learning

PSO Keywords: Cutting edge technologies, Research

"I am an engineer, and I know how to apply engineering knowledge to investigate, analyse and design solutions to complex problems using tools for entire world following all ethics in a collaborative way with proper management skills throughout my life." to contribute to the development of cutting-edge technologies and Research.

Integrity: I will adhere to the Laboratory Code of Conduct and ethics in its entirety.

Name and Signature of Student and Date

(Signature and Date in Handwritten)

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session	2024-25 (ODD)	Course Name	Web Technology Lab
Semester	3	Course Code	23CT1301
Roll No	28	Name of Student	Tanvi Deshpande

Practical Number	
Course Outcome	1. Understand various internet technologies. 2. Design the web pages using HTML and CSS. 3. Implement the XML technology to store the data. 4. Develop the interactive web pages using JavaScript.
Aim	Build ONE interactive app — a Calculator OR a short Quiz (pick one) — that responds to clicks/key-presses and updates results dynamically, demonstrating event handling.
Problem Definition	To develop a simple interactive Calculator using HTML, CSS, and JavaScript that performs basic arithmetic operations and demonstrates event handling through button clicks and keyboard input
Theory (100 words)	An interactive calculator is a web application that performs basic mathematical operations such as addition, subtraction, multiplication, and division. HTML is used to create the calculator structure and buttons. CSS is used to design and arrange the calculator. JavaScript is used to perform calculations and handle user events. Event Handling allows the program to respond to user actions such as button clicks and keyboard key presses. The main events used are: Click Event: Occurs when the user clicks a calculator button. Keydown Event: Occurs when the user presses a key on the keyboard.

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Procedure and Execution

(100 Words)

Steps of Implementation

- 1. Create the calculator layout using HTML.**
- 2. Design the calculator using CSS.**
- 3. Add JavaScript functions for calculations.**
- 4. Handle button click events.**
- 5. Handle keyboard key events.**
- 6. Display the calculated result dynamically.**
- 7. Test the calculator with different operations.**
- 8. Run the application in a web browser.**

CODE:

```
<!DOCTYPE html>
<html>
<head>
  <title>Simple Calculator</title>

  <style>
    body {
      font-family: Arial;
      text-align: center;
      margin-top: 50px;
    }

    .calculator {
      width: 250px;
      margin: auto;
    }

    #display {
      width: 230px;
      height: 40px;
      font-size: 20px;
      text-align: right;
      margin-bottom: 10px;
    }

    button {
      width: 50px;
      height: 50px;
      margin: 3px;
```

Department of Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

	<pre>font-size: 18px; } </style> </head> <body> <h2>Simple Calculator</h2> <div class="calculator"> <input type="text" id="display" readonly>
 <button onclick="clearDisplay()">C</button> <button onclick="addValue('/')">/</button> <button onclick="addValue('*")>*</button> <button onclick="addValue('-')>-</button>
 <button onclick="addValue('7')>7</button> <button onclick="addValue('8')>8</button> <button onclick="addValue('9')>9</button> <button onclick="addValue('+')>+</button>
 <button onclick="addValue('4')>4</button> <button onclick="addValue('5')>5</button> <button onclick="addValue('6')>6</button> <button onclick="calculate()">=</button>
 <button onclick="addValue('1')>1</button> <button onclick="addValue('2')>2</button> <button onclick="addValue('3')>3</button> <button onclick="addValue('0')>0</button> </div> <script></pre>

```
let display = document.getElementById("display");

function addValue(value) {
    display.value += value;
}

function clearDisplay() {
    display.value = "";
}

function calculate() {
    try {
        display.value = eval(display.value);
    } catch {
        display.value = "Error";
    }
}

document.addEventListener("keydown", function(event) {

    if ("0123456789+*/".includes(event.key)) {
        addValue(event.key);
    }

    if (event.key === "Enter") {
        calculate();
    }

    if (event.key === "Escape") {
        clearDisplay();
    }

});

</script>

</body>
</html>
```

	Output:	
Link of student Github profile where lab assignment has been uploaded	itsdeshpande27-dotcom	
Conclusion	Thus, the interactive Calculator was successfully developed. The project demonstrates the use of HTML for structure, CSS for design, JavaScript for calculations, and event handling for responding to user actions dynamically.	
Plag Report (Similarity index < 12%)	The project code was developed for educational purposes using basic HTML, CSS, and JavaScript concepts. The code is simple and original for this practical implementation. Plagiarism Status: No copied content identified in the submitted work	
Date	29/09/2026
